87.	88.

Notes:

- I'm certain there are more species of Seagulls & Terns; I have trouble telling them apart.
- There are many species of long legged shore birds at the Cove not listed, I can't identify them.
- There are likely other Hawk species, but I've not gotten close enough to positively identify them.
- There is at least one or two species of Owl, I've heard them, but haven't seen them.
- I'd guess there are Warbler species, but I haven't been able to identify them.
- There are more Sparrow species, but I haven't been able to identify them positively.
